Disaster and Emergency Contacts-Oregon
(Updated 12/16/22)

The local health departments (LHDs) have responsibility for the emergency preparedness and response activities in their respective counties. LHDs will coordinate Emergency Support Function #8 (ESF8) incidents and requests through the county Emergency Operations Center (EOC). The county EOC will then submit requests to the state Emergency Coordination Center (ECC). When all internal and external partner-based options to obtain PPE supplies or medical resources have been exhausted, then contact your local public health department for additional resources. Oregon Health Care Coalitions coordinate work with county and regional partners to prepared and respond to large-scale health emergencies.

For PPE or other Emergency Support or Resource Requests Contact:

- **Oregon State Local Health Department Contacts**
- If unable to contact local public health department requests for assistance should be made through your regional Health Care Coalitions.
