

Reimagining health care, together.

Research & Evaluation

Comagine Health's Research and Evaluation Team collaborates with academic, government, and nonprofit partners to conduct behavioral and physical health studies. Our work focuses largely in the areas of prevention and treatment of substance use disorders, controlled substance prescribing practices, harm reduction interventions, initiatives to promote community health and equity, and development and testing of tools for professionals and patients. We value collaborative approaches to ensure findings can be used to address stakeholder needs and inform program, community, and policy improvements.

What do we bring to partnerships?

- Community-responsive and collaborative research and evaluation design and implementation
- Strong relationships with health systems, clinics, and community-based organizations
- Experience managing complex multi-site studies
- Experience securing and managing linked datasets from varied sources, including health care claims, public health, and state administrative data
- Skill in quantitative and qualitative analysis
- Content expertise in opioid and other substance-related issues, pain science, healthcare systems, practice change interventions, and community health
- Strength in translating findings for dissemination to broad audiences

What services do we provide?

- Collaborative proposal development
- Research and evaluation design
- Program, practice, and policy evaluation
- Provider, patient, and community intervention testing
- Readiness and needs assessments
- Project management
- Study participant recruitment and retention
- Survey development and testing
- Qualitative data collection including focus groups and interviews
- Qualitative and quantitative analysis
- Aggregation, cleaning, and management of large linked datasets
- Epidemiological surveillance
- Systematic literature review
- Dissemination through manuscripts and presentations
- Policy and issue brief development

Who is on the team?

Christi Hildebran, LMSW, CADC III
Senior Director,
Research and
Evaluation

Gillian Leichtling
Director, Research
and Evaluation

Sara Hallvik, MPH
Senior Director,
Analytic Services

Sanae El Ibrahimy, PhD, MPH
Senior Healthcare
Analyst

Erin Stack, MS
Senior Research
Associate

Michelle Hendricks, PhD
Senior Research
Associate

Mary Gray, PhD
Senior Research
Associate

Kate LaForge, MPH
Research Associate

Carissa Bishop, MPH
Research Assistant

Justine Pope, MPH
Research Assistant

What are we currently working on?

Intervention to Increase Naloxone Engagement and Distribution in Community Pharmacies

In partnership with Brandeis University and Oregon State University
Supported by National Institute on Drug Abuse

Novel Medicaid Policy to Reduce Opioids for Back Pain

In partnership with Oregon Health & Science University, Oregon State University
Supported by National Institute on Drug Abuse

Determining Early Predictors of Opioid Overdose Using a Linked Dataset

In partnership with Brigham and Women's Hospital, McLean Hospital and Brandeis University
Supported by National Institute on Drug Abuse

Oregon HIV/HCV and Opioid Prevention and Engagement (OR-HOPE)

In partnership with Oregon Health & Science University, Oregon Health Authority, Bay Area First Step and HIV Alliance
Supported by National Institute on Drug Abuse, Centers for Disease Control and Prevention and Substance Abuse and Mental Health Services Administration

Reducing Overdose after Release from Incarceration (ROAR)

In partnership with Oregon Health & Science University, Oregon State University, Oregon Department of Corrections, Bridgeway Recovery Services and CODA, Inc.
Supported by Centers for Disease Control and Prevention

Peer Recovery Initiated in Medical Establishments + Infectious Disease Testing and Linkage to Care (PRIME+)

In partnership with Oregon Health Authority Acute and Communicable Disease Program
Supported by Centers for Disease Control and Prevention

Overdose Data to Action -- Evaluation of Oregon's Overdose Prevention Initiative

In partnership with Oregon Health Authority Injury Violence and Prevention Program
Supported by Centers for Disease Control and Prevention
